*Policy, Strategy and Operational Solutions
for Governments and Business*

About UDSS

Universal Defence and Security Solutions (UDSS) is unique in Europe. We have the largest pool of former UK military, from 4* to warrant officer, across land, sea, air and Civil Service.

- As a result, we are able to cover policy and strategy through to technical advice, across the breadth of the defence and security sectors and in all domains.
- We work in tandem with the UK MoD, FCO and Department for International Trade and are able to offer the best of UK Defence knowledge on all aspects of modernisation, innovation and acquisition.
- We have specialist former senior UK National Crime Agency partners that have international experience in issues such as policing, corruption, drug interdiction and border security.

Detailed Areas of Specialisation

UDSS provides the highest levels of advice and expertise in areas such as:

- Defence Policy, Planning and Programming
- Military Strategy and Operational Planning and Execution
- Wider Security and Operations (other than war)
- Digital Age Transformation and Cyber

In doing so, we also provide expertise to specialisms such as:

- Leadership and Mentorship
- Policy Development and Implementation
- Strategic Planning
- Defence and Service Level Force Design
- Organisation Design
- Education and Training
- Contested Cyber Environments
- Logistics Support and Infrastructure Management
- Acquisition and Capability Management
- Project Management
- Intelligence, Surveillance and Reconnaissance

UDSS is working with governments, Armed Forces, industry and other organisations from around the world, both in an independent capacity as well as in collaboration with government and industrial teams covering a wide range of contemporary and future scenarios.
